CM200V is an ideal cash processor with comprehensive sorting solution for Banks, CITs, Bullion Markets and various retail segments.

Precise Cash Processing

- Cutting edge detection technology and authentication facilitated with CIS (Contact Image Sensor), IR, UV, magnetic, thickness sensors CM 200V detects soiled, stained, taped, torn, dog-eared, mutilated and counterfeit banknotes.
- **OCR technology enables:**
 1. **Automatic serial number capturing** - Serial number can be captured in the machine as well as on PC. These can also be directly transferred on to a pen drive
 2. **Real Time Image Capturing** – Image of the bank note can be recorded on the Machine as well as transferred to a PC.

User Friendly Operation

- **5-inch Interactive touch screen plus function keys** facilitate user friendly operations.
- **High brightness LED display** indicates the number of banknotes in the stacker.
- **Continuous feeding of banknotes** through hopper ensures non stop operations, user can keep feeding the banknotes.
- The **USB, RS-232 and LAN interface** facilitate external connectivity of CM 200V with external LCD, printer and PC for data report management of the banknotes processed on the machine.
- **State of the art technology** ensures the scalability of CM 200V for better cash processing and management solutions.

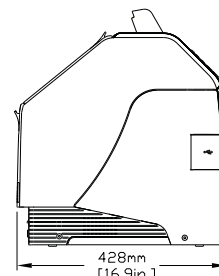

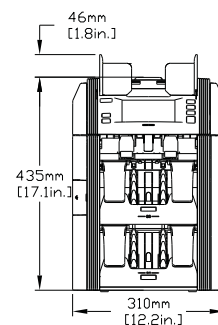

Easy Maintenance

- Easy access for regular maintenance and removal of miscued banknotes.
- The dust accumulated during cash processing gets automatically collected in a separate dust tray.
